

White Paper on International Trade (White Paper on International Trade Japan)

Foreign Policy White Paper 2017

Submission by Ian Dudgeon

Introduction

This submission addresses the issues of the primary importance to us of the Asia-Pacific region, our interests and values, who we are and our image, the need for an independent foreign policy, the US alliance, regional engagement, our multilateral and international legal commitments, and aid and development assistance. It puts the views of the author, an active practitioner in international affairs.

The role of foreign policy

The fundamental role of Australia's foreign policy is to protect and promote Australia's national interests within the global community of which we are part.

Our region

While recognising we are part of a global community, the Asia-Pacific region is the area of primary importance to us for political, economic and national security reasons.

Geographically, this region reaches from South Asia through to North America. It includes India, China, Japan, South Korea, Russia, the US and Canada. It also includes Indonesia and the other ASEANs, as well as New Zealand and those Pacific Island states in the South West Pacific. Also included are critical sea lanes for international trade, especially the Malacca Strait and South China Sea.

This region is home to more than half the world's population, it is the new engine room of the global economy, and the region encompassing most of our two-way trade and investment. Also, more than anywhere else, any major event and most other events that occur in this region, inevitably, will affect at least some, potentially all, of Australia's national interests, directly or indirectly.

The Indo-Pacific region is also important to Australia, but in relative terms, less so than the Asia-Pacific. This region overlaps with South, East and S.E. Asia and extends vital two-way sea lanes westward to include oil supply routes from the Middle East and sea trade access to and from Europe. These western reaches are also where most ADF overseas operational deployments have occurred during the past decade and a half (e.g. Afghanistan, Iraq) in support of UN-mandated or other alliance commitments. But the region's eastern boundary stops mid-Pacific, and most significantly, excludes North America.
